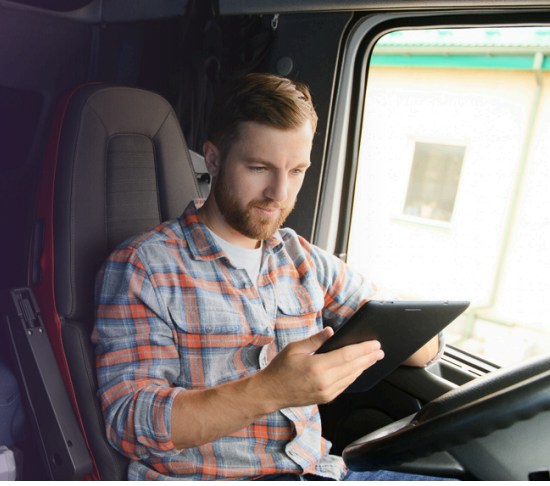
RHYTHM INNOVATIONS

Fit2Drive™ Driver Training



Intelligent Driver Coaching & Risk-Based Learning

Powered by Rhythm Innovations and SambaSafety

Build better drivers through continuous coaching.

Annual training isn't enough. Fit2Drive™ Driver Training combines risk intelligence, driver behavior, telematics, MVR activity, incidents, and supervisor oversight to automatically deliver the right training to the right driver at the right time, helping fleets reduce preventable crashes, improve compliance, and strengthen insurability.

SaferFleet™ Driver Training Benefits

- Reduce preventable crashes
- Improve driver coaching
- Reinforce safe driving behaviors
- Strengthen FMCSA compliance
- Increase driver accountability
- Standardize onboarding
- Improve audit readiness
- Reduce insurance exposure
- Create a documented safety culture
- Support continuous driver development

SaferFleet™ Training Key Capabilities

Risk-Based Course Assignment

Automatically assigns training using:

- Telematics events
- Incidents
- MVR violations
- Driver performance
- Supervisor recommendations

600+ Professional Courses

Powered by SambaSafety's training library, featuring:

- Defensive Driving
- Distracted Driving
- Backing & Parking
- OSHA Training
- Microlearning & Safety Shorts
- Manager Training
- DOT Compliance

Training Management

Track:

- Assignments
- Completion
- Certifications
- Coaching history
- Expired training
- Organizational compliance

COACHING THAT NEVER STOPS

Continuous Driver Development

SaferFleet™ continuously evaluates driver behavior and recommends targeted coaching before unsafe habits become preventable crashes. Training can be assigned automatically or by supervisors, creating a closed-loop coaching process that improves performance over time.

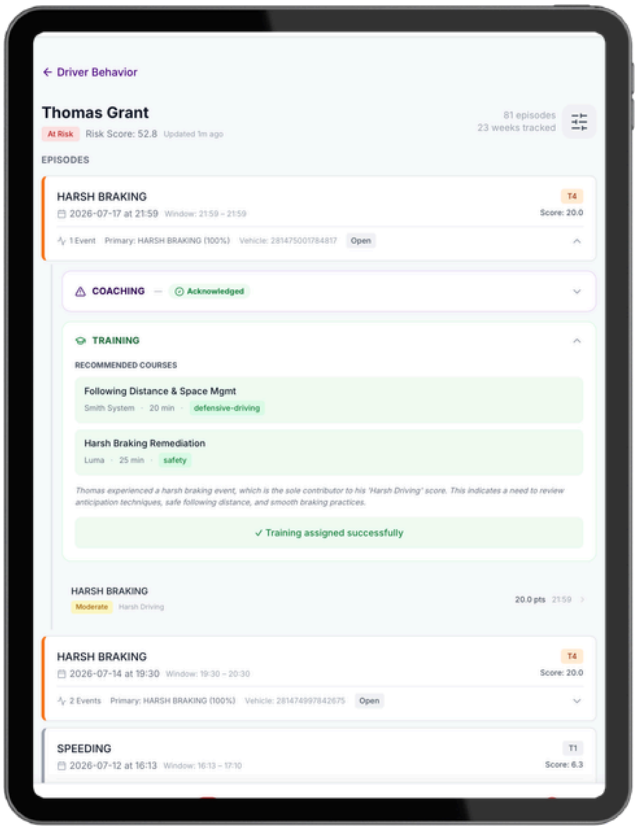
Turn Every Driving Event Into a Coaching Opportunity

Schedule a demonstration to see how Fit2Drive™ Driver Training helps fleets reduce preventable crashes, improve compliance, strengthen insurability, and build a stronger safety culture.



Why Rhythm?

Unlike standalone Learning Management Systems, Fit2Drive™ Driver Training is directly connected to your fleet's operational risk. Training assignments are triggered by real-world driving behaviors not arbitrary schedules.

Powered by Rhythm Innovations and SambaSafety, fleets receive a complete driver development solution that combines:

- Risk Intelligence
- Driver Readiness
- MVR Monitoring
- Compliance
- Training
- Coaching
- Performance Analytics
