

SaferFleet™ is a managed fleet safety, compliance, and risk reduction solution.

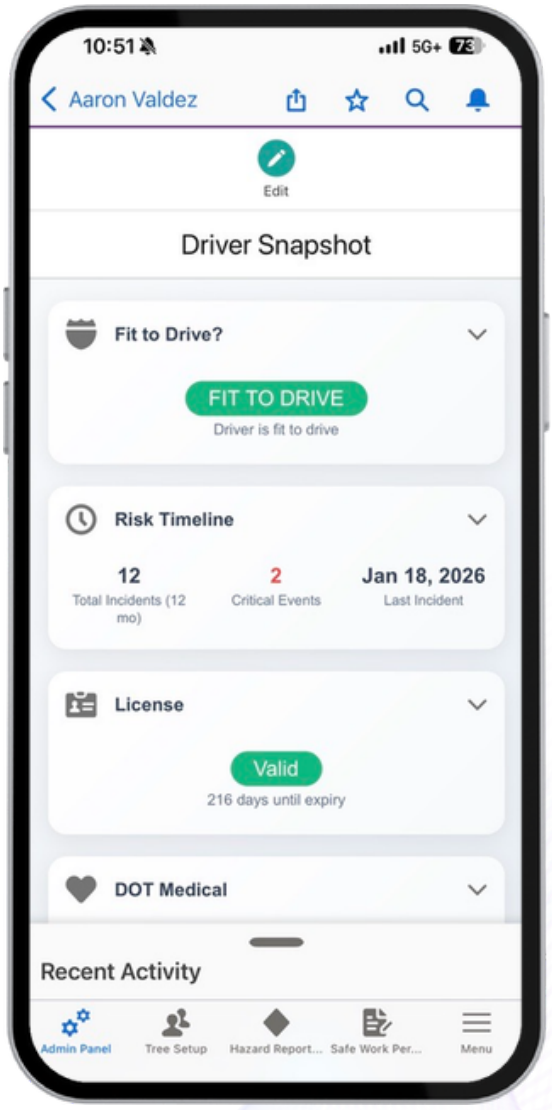
It combines technology, driver monitoring, training workflows, compliance oversight, and advisory services into a single operational safety program for commercial fleets and field service organizations.

Why SaferFleet™?

Improve your insurability to qualify for more placement options, maintaining current or possibly lower premiums.

Increase your profitability by avoiding citations, inspections, and OOS events.

Qualify for preferred or higher paying loads with better payment term.



Driver Snapshot

4 Step Onboarding Process*:

STEP 01 Program Introduction and Account Set-up

STEP 02 SaferFleet System Activation
